

Find the correct size

The right size is crucial for the workwear's functionality, and for your comfort and safety. In MASCOT's assortment, many products have a fit that can be used by both men and women. In addition, you will find MASCOT products that are especially designed for women, as well as an assortment for children.

There are various measurements to be made depending on the item of clothing you require. If your measurements do not correspond directly to one size, you should generally move towards the right on the table and pick a larger size.

To find the right size, and get the most accurate measurement, we recommend that someone else measures you. Take the measurements close to the body, and when measuring the waist size, the measuring tape should be wrapped tightly around the body. Also remember to measure your leg length. In most of MASCOT's trousers, you can choose between three leg lengths.

H. Head measure

Measure the circumference of the head.

P. Collar size

Measured around the neck – 1 cm above the collar bone.

A. Chest

Measured around the widest part of the chest.

K1. Waist size

Measure the waist size just above the navel.

K2. Waist size

Measure the waist size just below the navel.

L. Hip size

Measured around the widest point of the hips.

E. Inner seam

The length is measured on the inside of the leg from crotch to floor (barefoot).

T. Height

Your full height.

Try the clothes on!
In that way, you are sure that the clothing fits as it should.

How to find your size in the measuring chart

For example: You are looking for trousers with a low waist.

Your waist measurement (K2) is 92 cm.

Find your measurement under K1/K2 in the chart. If your size fall between two sizes, you should choose the larger size.

In this example you should choose 93 cm and therefore the size C52. Remember also to measure your leg length before you order.

Across MASCOT's assortment you will find women's trousers, shorts and skirts in two different fits. It is your body's measurements that determine which fit you should choose. The two fits are called: DIAMOND and PEARL.

Two steps to find the trousers/skirts/shorts that are just perfect for you:

1) Find your fit

Your MASCOT fit will depend on a combination of your waist size (the narrowest part) and your hip measurement (the widest part).

The general rule of thumb is that if there is a difference of more than 20 centimetres between your hip and your waist measurements then you should opt for a DIAMOND fit. If the difference is less than 20 centimetres, on the other hand, then you should choose PEARL.

2) Find your size

You can find your size by measuring the circumference of your hip at its widest point. Check the table below your fit: Determine your size based on the circumference of your hip.

Ladies trousers and skirts

DIAMOND fit: A difference between waist and hip measurements of more than 20 cm.
